MYSTIC-aluminum rims - powered by Schmidt Revolution

Schmidt Revolution hit the mark with the new MYSTIC rims. The aluminum rim convinces with trendy crossings and exchangeable decor sets. As the name implies, we are talking here about the revolutionary MYSTIC rim design and color can be changed within seconds. This new tuning system offers the customer a high degree of creativity without changing the complete wheelwork.

Let your imagination run wild. With the new MYSTIC rim from Schmidt Revolution you can change the look of the rim in no time at all. Custom fit decor sets, optionally in white, red or chrome, accomplish an individual design. The decor sets are screwed to the base rim by using a Torx screwdriver.

The high quality rims are also provided with an extra weatherproof rim which can be changed easily in case of damage. All models of the MYSTIC rim are available in the sizes 7,5x17" up to 8,5x17".

Just as unique: at www.felge.de you can find all certificates in the download area.
